The Department of Materials Science and Engineering at Cornell University is soliciting applications for a tenured or tenure-track faculty position. Exceptional candidates are sought, particularly those who will dramatically enhance our program in the strategic research area of soft materials by design, which includes theoretical and computational approaches to structure, order, and dynamics of soft materials. Candidates whose research interests align with the Cornell NEXT initiative in nanoscale science and microsystems engineering are particularly encouraged to apply: http://next.cornell.edu. More information on Cornell MS&E's strategic research focus is available at: http://mse.cornell.edu.

Candidates are expected to currently have or to develop an internationally recognized program of research and teaching in materials science and engineering. Considerable institutional resources are available for the support of the successful applicant's research program and a competitive start-up package can be expected. The successful candidate can expect to benefit from associations with Cornell's many interdisciplinary research centers, facilities, and initiatives, which include a number of national resources. The successful candidate will be expected to excel in the teaching of materials science and engineering and to mentor students at both the undergraduate and graduate levels. Applicants at all levels will be considered for this position.

The Department of Materials Science and Engineering and the College of Engineering at Cornell embrace diversity and seek candidates who will create a climate that attracts students of all races, nationalities and genders. Women and under-represented minorities are strongly encouraged to apply. Applications including a resume that includes a list of publications, a statement on teaching and research interests, up to three publications, and names of several references should be submitted online within this site.

Applications including a resume, a statement on teaching and research interests, copies of publications or preprints, and names of several references should be submitted online at: https://academicjobsonline.org/ajo/jobs/7009 Applications will be reviewed starting March 1, 2016 and will be accepted until this position is filled. http://www.mse.cornell.edu/mse/news/jobs.cfm
